This software supports reprogrammable Engine and Transmission control unit ECUs from 1999 to current model year vehicles, and 2005 MY and later VIN writing into ECUs, when using a Nissan validated pass-through device. This software only provides Engine and Transmission control unit ECU reprogramming, blank programming and VIN writing capability. It does not provide diagnostic or key programming capability.

**Purchasing NERS Software**

**STEP 1**

Purchase NERS by first clicking on the 'NERS J2534 ECU 'Blank' Programming, ECU Reprogramming, VIN writing and Device Maker Self Validation Program' tab shown below:

Click the link "Purchase" link:

Click the link "Purchase NERS Software (version 03.04.00) - $ 270" as shown below.

Confirm your purchase by clicking "Check Out":

Download NERS Operator Manual V5.2 - No Charge

Once you have purchased ECU data file(s) and your order is completed, your ECU files can be downloaded. Please verify that you are logged in to your account before proceeding.

- Visit the ECU File Downloads Page

Download the ECU data file. You can access the ECU Download page on your confirmation page:

The ECU data file will be located in the “ECU Downloads” box:

OR you can access it by going to your “My Available Downloads” page that can be found on the home page of the site:

The download will pop-up at the bottom of the screen for your access:
STEP 2 continued

Once the file is unzipped, you will be presented with 4 files. Double click the "unpack" file. A confirmation will appear that states that your files have been moved to a specified location. If the "unpack" file does not move your files to the proper location, you can copy and paste the .dat, .csv (excel file), and the "readme" file to the appropriate location, listed below.

Files will be moved to:
WIN7: C:\Program Files (x86)\Nissan J2534 ECU reprogramming software\Application data\Reprogramming
OR
XP: C:\Program Files\Nissan J2534 ECU reprogramming software\Application data\Reprogramming Data folder
